

**LEGEND**

**Project footprint**

- South Thomson Barge Landing onshore area
- Dredged area and dredging ticks
- Wharf Area (rock armour)

**Indirect impacts**

- ZoMI - minimum distance from the dredged channel of 150m
- ZoI - maximum predicted extent of visible plumes
- ZoHI - minimum distance from the dredged footprint of 25m

**Biologically important areas of regionally significant marine species (DCCEEW)**

- Distribution, Pygmy Blue Whale
- Migration (north and south), Humpback Whale
